have to complete  
biology lab  
reports. The  
purpose of  
writing a lab  
report is to  
determine how  
well you  
performed your  
experiment, how  
much you  
understood about  
what happened  
during the

Page 83/93

experimentation process, and how well you can convey that information in an organized fashion.

Biology lab reports have a specific format that must be followed to present the experiment and

*findings in an organized manner. Once you learn the main components of the lab report and what they should include, you will find they aren't...*
