Inmarsat C System Definition Manual

Inmarsat C is a two-way store and forward communication system that transmits messages in data packets in ship-to-shore, shore-to-ship and ship-to-ship direction. Inmarsat C

Page 4/94

inmarsat-c-system-definition-manual

comprises of a small omnidirectional antenna, compact transceiver (transmitter and receiver), messaging unit and, if GMDSS-compliant or with a distress function, a Dedicated Distress Button to activate a Distress Alert.
