Japanese Mariner
motors have a totally
different serial

Page 33/149

number scheme, e.g.

"6A3-S-123456 "

We currently do not have those here, but are largely useless.

These motors do not have any consistent year-to-serial scheme. Mercury ceased publishing this information after the 1996 model year.

Japanese Mariner motors have a totally different serial number scheme, e.g.

"6A3-S-123456 "

We currently do not have those here, but are largely useless.

These motors do

Page 115/149

not have any
consistent year-to-
serial scheme.

Mercury ceased
publishing this
information after
the 1996 model
year.

The Mercury Mariner is a compact crossover SUV that was introduced in 2005. It is a sibling of the Mazda Tribute and Ford Escape, although it is more upmarket than the other two. The

Page 119/149

Mariner is Mercury's first car-based SUV, and is slotted below the Mountaineer in the lineup. When Ford eliminated the Mercury brand, the Mariner ended production in October 2010.

Mercury Mariner -
Wikipedia

In 1966,
6-cylinder
Mercury models
featured the
introduction of
electronic ignition,
another first that
eventually became
an industry
standard. Carl
Kiekhaefer

resigned as
President of
Kiekhaefer
Mercury in 1969,
and the name was
changed to
Mercury Marine.
During this time,
Mercury produced
snowmobiles, like
many other
companies in the
late 1960s.
