nurse's aide is a certified nursing assistant (CNA) who has additional, specialized training in restorative nursing care. A restorative nurse's aide (RNA) helps patients gain an improved quality of life by increasing their level of

strength and
mobility.

Restorative skills for
CNAs (Certified
Nursing Assistants)
differ from
Restorative Nursing
Assistants (RNAs) in
several ways. An
RNA is required to

Page 128/141

have CNA training, with additional restorative training. CNAs, however, are simply required to acquire a basic competency level with restorative skills, in addition to all expected CNA duties.
