

Solution Manual Of Think Python

Think Python 2e - Green Tea Press

This is the second edition of Think Python, which uses Python 3. It starts with basic concepts of programming, and is carefully designed to define all terms when they are first used and to develop each new concept in a logical progression. Larger pieces, like recursion and object-oriented programming are divided into a sequence of smaller

steps and introduced over the course of several chapters.

```
# Solution for Python3 #  
Replace '/' by '/' for Python2  
from copy import deepcopy  
def increment (time,  
seconds): r = deepcopy  
(time) r.second += seconds  
r.minute += r.second // 60  
r.hour += r.minute // 60 r.  
second %= 60 r.minute %=  
60 r.hour %= 24 return r
```
